## Manufacturer's Description

Finally, a backup for everyone! Introducing the World's first [Automatic Backup](#) on an external hard drive. [Clickfree Automatic Backup](#) requires no software installation or configuring, all of the intelligence is in the device. Take the Clickfree device right from the box, plug it into the PC and backup begins automatically. It's that simple! Clickfree [Automatic Backup](#) is a breakthrough in simplicity and convenience for consumers or small business backup - now all PC users can perform backup. How does it work? Once connected to your PC, the Clickfree backup software begins automatically searching for over 400 different file types and copies them onto the device. No software to install or setup. Automatically find, organize and backup all your data onto the Clickfree portable backup drive. Works right out-of-the-box. Just plug it in and the backup just starts. Backup multiple computers with one Clickfree portable backup drive. Backs up data from up to 10 computers. Easily restore your lost files back to your computer. Transfer your files to a new computer. Share photos, music and videos with your friends.

## Box Contains

## Customer Reviews

*Clickfree, HD525 Automatic Back Up with no Prior Installation Required.* rated 5.0/5.0 based 2 ratings 2 reviews

2011-07-09T19:03:55+00:00 **Edna** rated 5.0/5.0:

This product was recommended to me by a friend and I then decided to purchase one for myself, as I had on one occasion lost information from my computer. I found the product very easy to use and will keep it updated regularly.

2011-03-18T17:17:31+00:00 **jimber** rated 5.0/5.0:

clickfree, Super and Idiot proof.Pug and GO!!Its set to remind me to back up every 28 days.On screen display showing what its doing!But it likes its OWN cable!!!Best bit of kit ive ever baught!! JIm 75yrs.
